

EMRTS Weekly Report

Week: May 25 - May 29, 2026

Projects Completed

State Capitals Project (Small)

- **Part 1:** Created JSON file with all 50 US state capitals + Washington DC addresses
- **Part 2:** Added latitude and longitude coordinates using urllib and OpenStreetMap API
- **GitHub:** <https://github.com/RossJiao/state-capitals-project>

MIT Course Progress

- **Completed:** Lectures 1, 2, 3, 4
- **Topics:** Data types, branching, loops, string manipulation, guess-and-check, bisection search, functions, decomposition, abstraction

Next Week Plan

- Complete FizzBuzz project
- Watch Lectures 5-7
- Start another Small project

Issues Encountered

- SSL certificate error with geopy on Mac → switched to urllib for HTTP requests
