Date: 06/08 – 06/12

Weekly Report

Week: 06/08 – 06/12

Subject of This Week:

- TABIND Scrabble Project (<https://github.com/RossJiao/scrabble-project>)
 - Developed a Python program that finds all valid Scrabble words from the letters 'tabind' using each letter only once.
 - Implemented letter frequency matching using Python's Counter from the collections module.
 - Switched from macOS system dictionary to the official SOWPODS Scrabble dictionary (178,691 words), reducing results from 84 to 49 legitimate Scrabble words.
 - Results are displayed alphabetically and saved to scrabble_results.txt.
- GitHub Profile Update (<https://github.com/RossJiao>)
 - Created a GitHub profile README with personal introduction and project table linking to all repositories.
 - All repositories now follow proper documentation standards with detailed README files.
- MIT 6.0001 Python Lectures
 - Completed Lectures 1 through 11.

Notes:

- The SOWPODS dictionary is the official international Scrabble word list used in competitions outside North America.
- Switching to the Scrabble dictionary improved result accuracy — the previous system dictionary included many non-Scrabble words.
- GitHub profile now matches the organization standards discussed in team meetings.

Plan for Next Week:

- Continue MIT 6.0001 Python lectures.
- Work on next assigned project.
- Continue learning Bash and Elixir.

Hours Worked: 20

Intern Checklist:

1. Receive the internship offer letter
2. Accept the terms of the offer letter
 - 2.1. Create a Telegram account and be added into group chat
 - 2.2. Create a LinkedIn account (Connect with Verbus, and other interns in the program. Then join MMIS Professionals and Mostly Medicaid (Medicaid Professionals))
 - 2.3. Create a GitHub account
 - 2.4. Please use Mermaid in your documentation.
3. Recommended AI assistant is CLAUDE
4. Attend the daily standup calls
5. Take notes and produce weekly report (due Friday's, Saturdays at the latest)
 - 5.1. PDF (EMRTS_Weekly_report_date_firstname_lastname.pdf)
 - 5.2. JSON (EMRTS_Weekly_report_date_firstname_lastname.json)
6. Watch the Python Lectures from MIT (Lectures 1-11)
 - 6.1. <https://ocw.mit.edu/courses/6-0001-introduction-to-computer-science-and-programming-in-python-fall-2016/>
10. Work on the Assigned Project
 - 10.1. State Capitals Project - completed
 - 10.2. 4-Gallon Water Bucket Problem - completed
 - 10.3. TABIND Scrabble Project - completed
 - 10.4. Push all projects to GitHub with README documentation
